

## About MPS

As an office manager for many years I saw just how unpredictable a day in your practice can be. I've seen first hand how a physicians accounts receivables will go from unmanageable to uncollectible and eventually to forgotten. As a physician, you work hard and you need to get reimbursed for as much of your efforts as humanly and contractually possible.

Seven years ago I began working this from the other side for a medical billing company. There, I was able to focus on getting physicians paid properly and promptly for the vital patient services they provide. I quickly came to understand that with experience and a single-minded focus on good medical billing practices, you can collect the monies you rightfully deserve.

Experience working on both sides has given me a unique perspective. I understand the pressures and challenges of running the office, meeting patient demands and struggling to keep the vital flow of reimbursements on track. Today, I have a business where I can focus on what I do best. I get your claims processed and paid when they should and the way they should.

At Medical Practice Solutions Inc, I'm surrounded by qualified, experienced professionals that will work hard to get the job done right. We are certified billing specialists and we pride ourselves in the ability to get it done right the first time. Our staff is a group of first rate professionals who understand the importance of timely and accurate submissions as well as the confidential nature of the task at hand.

So, whether it is medical billing, working accounts receivable or credentialing; if you've been in practice for many years or you are just opening your doors, I believe that I have put together the tools you need. Medical Practice Solutions will get your processes running smoothly and keep them running smoothly. Soon you will be able to concentrate on patient care and doing the things you'd rather do to make your practice grow and prosper. We have over sixty years of combined experience and service to get the job done and get it done right.
