## Medical Billing

### Billing Services:

Revenue management for the health care provider is the target of your Medical Practice Solutions Billing Specialists. We have developed an interrelated healthcare billing service that allows us to:

- Improve rates and timeliness of collections
- Provide utilization and practice specific information to improve scheduling and patient management.
- Provide state of the art IT solutions to claims management, secure data storage, electronic medical records and reporting.
- Generate management reporting vehicles to further enhance the physicians understanding of business cycles and revenue sources.
- Support the practice with quality customer service to answer billing concerns by patients and insurers.

All this is done in a safe and secure environment. Our people are bound by the same rules and expectations of patient confidentiality and privacy of data as your own employees would be. At Medical Practice Solutions we pride ourselves in ensuring accuracy for the submission of all client data.

### Credentialing:

Whether you're just starting your practice, or have been in practice for years, Medical Practice Solutions will handle all your credentialing and recredentialing needs, with all the insurance carriers you choose to participate with.

### Consulting and Practice Management:

From start-up to pro-formas to operational efficiencies, our consulting team focuses on working with you to develop long term planning solutions to meet your business and financial objectives. With more than 30 years of experience, we can help you improve operational efficiencies; maximize your position on managed care contracts and much more!
